

Project Initialization and Planning Phase

Date	29 September 2026
Team ID	SWTID-2026-5841
Project Name	FitBuddy – AI Fitness Plan Generator
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

A problem statement describes the customer's point of view. FitBuddy focuses on people who want to exercise regularly but do not have a personalised, adjustable plan and cannot afford or arrange a personal trainer.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A beginner who wants to get fit	Follow a workout routine that suits my age, weight and goal	Generic online plans ignore my details	They are not personalised to me	Overwhelmed and unsure where to start
PS-2	A busy working adult	Stay active with a clear weekly plan	I cannot afford a trainer or spend time building a plan	Trainers are costly and planning takes effort	Frustrated, but hopeful about a quick solution
PS-3	A gym-goer with a specific goal (muscle gain, weight loss)	Change my plan when something does not suit me	Fixed plans cannot easily be adjusted	Static plans do not respond to my feedback	Motivated when the plan adapts to me

Chosen focus: PS-1 and PS-3 are addressed together by FitBuddy, which generates a personalised 7-day plan from the user's details and revises it based on feedback.
