

Project Demo Planning

Date	29 September 2026
Team ID	SWTID-2026-5841
Project Name	FitBuddy – AI Fitness Plan Generator
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan helps the team present FitBuddy clearly. This plan covers the demo flow, features to highlight and the responsibility of each member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Team	Greet, present the project name FitBuddy, Team ID and members	1	Dhanush M
2	Problem Statement	Who struggles to find a suitable workout plan and why	1	V Brindha
3	Solution Overview & Architecture	How FitBuddy works: FastAPI, Gemini, SQLite; architecture and data flow	2	Sandhiya S
4	Live Feature Demonstration	Fill the form, generate a plan and tip, submit feedback, show validation and error handling	4	Jayavardhani P (operates the app), Dhanush M (explains)
5	Testing, Scalability & Future Plan	Test cases, performance plan, limitations and roadmap	2	Ishwarya
6	Backup & Documentation	Show repository and documents; backup screenshots ready in case of network issues	1	V Brindha, Ishwarya

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Start with a simple line: "FitBuddy builds a weekly workout plan you can adjust."
2	Solution Overview	Explain the flow: form, validation, Gemini, database, result page
3	Live Feature Demonstration	Use a prepared sample profile; show plan, tip and feedback update
4	Q&A Session	All members answer questions on their own modules

Preparation Checklist:

- Start the server and confirm the API key and internet connection before the demo.
- Pre-generate one plan as a backup and keep screenshots ready.
- Prepare two or three sample profiles with different goals.
- Rehearse once as a team to keep within the time limit.
