Overview

FitBuddy generates personalised 7-day workout plans and nutrition tips using Google Gemini, and lets users refine the plan through feedback.

How to use

- Open the home page and fill in name, user ID (for example FB001), age, weight in kg, fitness goal and intensity.
- Click Generate 7-Day Plan and wait for the loading overlay to finish.
- Read the plan (Day 1 to Day 7) and the nutrition/recovery tip.
- Enter feedback such as "replace running with swimming" and submit to receive an updated plan.
- Administrators open /view-all-users to see or delete stored users.

Inputs

Field	Allowed values
Name	1–100 characters
User ID	Letters, digits, dash, underscore (max 100)
Age	13 to 100
Weight	Greater than 0, up to 500 kg
Goal	general wellness, muscle gain, weight loss, flexibility, cardio fitness
Intensity	low, medium, high
