

Communication

Project Demonstration · AI/ML and GenAI Track

- Start with a simple, jargon-free line: "You tell FitBuddy about yourself, and it builds a weekly workout plan you can adjust."
- Explain the technical side second: FastAPI backend, Gemini for generation, SQLite for storage.
- State limitations openly: AI output can vary and is not medical advice.
- Speak to the audience, not the screen; keep to the time limit; invite questions at the end.

Key messages

Message	Supporting point
Problem	Beginners lack personalised, adaptable guidance
Solution	AI-generated 7-day plan that improves with feedback
Safety	Prompts avoid extreme advice and recommend professional help when needed
Next steps	Secure admin access, accounts, progress tracking, scalability
